## Software Developer

Hi, I'm Daniel Dias, a Software Developer from Porto, Portugal, with a diploma of merit for the Best Student of Software Engineering Master's degree. I have a huge passion for software development, either in Web, Mobile or Desktop development. I'm always exploring new technologies and solutions to solve problems.

I'm currently looking for a challenging environment that would lead me to make a positive impact in the community and learn new things along the way.
